

# The Four Seasons

9

Mom, it's 7 p.m. now. Why is the sun still up in the sky?

Because we have more daylight in summer.

### In this unit, students will:

- compare the different characteristics of the four seasons.
- identify units of time related to the Earth's cycle.
- understand the temperature changes in the four seasons.

A. Trace the correct arrows to show the cycle of the seasons. Then cross out X the pictures that do not match the seasons.

The Earth's long journey around the sun gives us four seasons: Spring, Summer, Fall, and Winter.

Spring

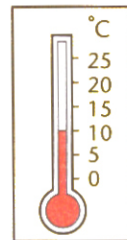

Summer

Winter

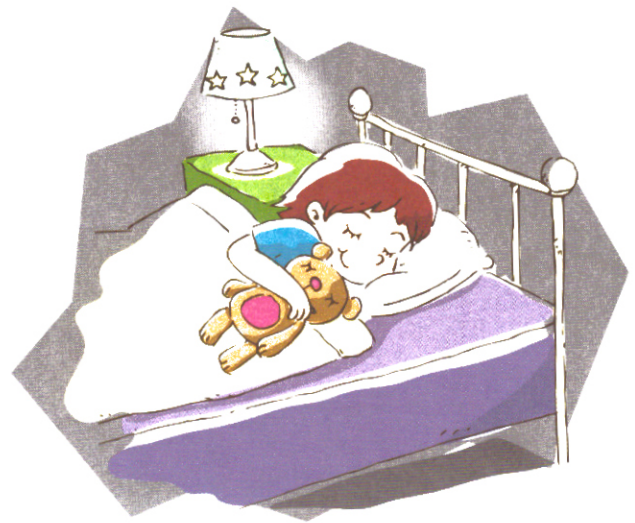

Fall

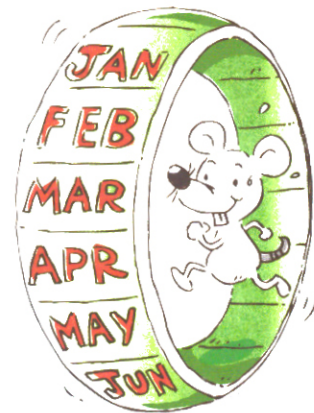

**B. Complete the following poems with the given words.**

day      month      year

1. From sleep to sleep  
We like to say  
That all that has happened  
Has taken a \_\_\_\_\_

2. Put together twelve months  
A long time, so let's cheer  
For the hundreds of days  
That make up a \_\_\_\_\_

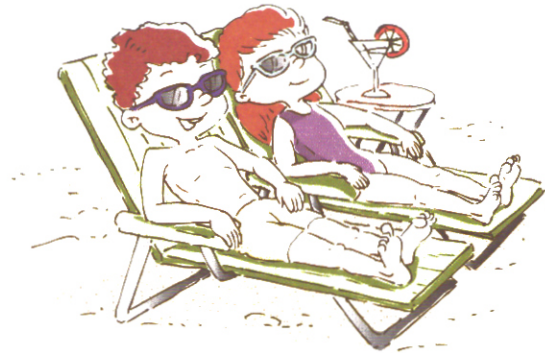

3. Many days have gone by  
We can gather and bunch up  
About 30 of them  
Let's call them a \_\_\_\_\_

9

C. Tell what season each picture shows. Then match the thermometer with the correct picture.

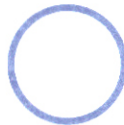

1. \_\_\_\_\_

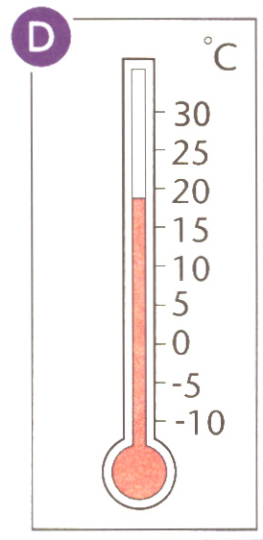

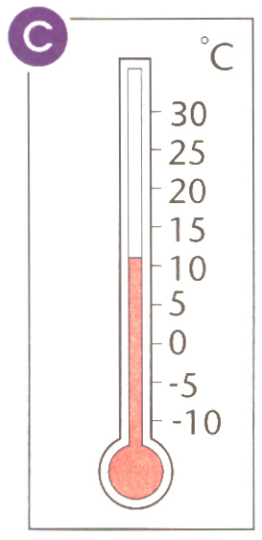

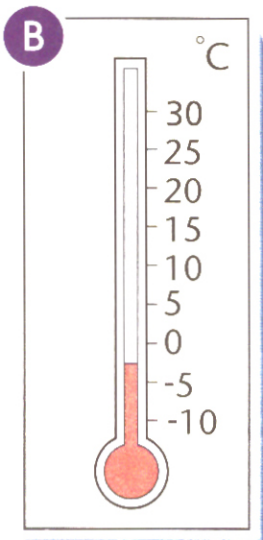

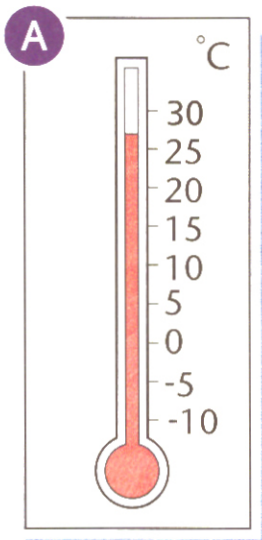

2. \_\_\_\_\_

3. \_\_\_\_\_

4. \_\_\_\_\_

**D. Name the season for each of these changes.**

1. Some birds fly south where it is warmer.

\_\_\_\_\_

2. Birds that have been away for the winter return.

\_\_\_\_\_

3. Days are shorter; nights are longer.

\_\_\_\_\_

4. Days are longer; nights are shorter.

\_\_\_\_\_

5. Buds appear on trees.

\_\_\_\_\_

6. Trees are green and flowers are in bloom.

\_\_\_\_\_

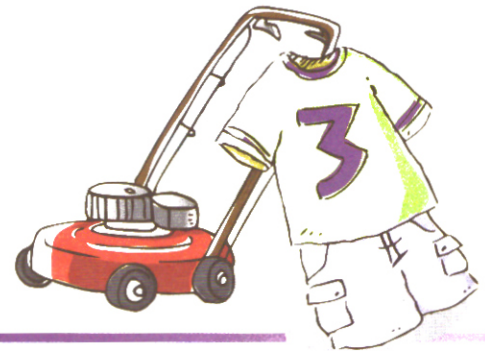

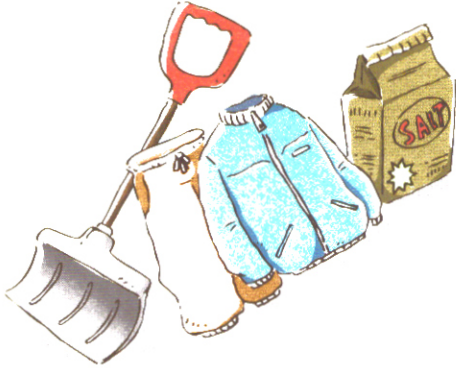

7. Snow falls.

\_\_\_\_\_

**Try this**

# Seasonal Jobs

Look at the outfits and things for the seasonal jobs below. Find an advertisement in the newspaper or a flyer for one of the seasonal jobs. Cut it out and glue it in the box.

## Checklist

### Are you able to...

- compare the different characteristics of the four seasons?
- identify units of time related to the Earth's cycle?
- tell about the temperature changes in the four seasons?
